SKILLS

- Languages:** Java, JavaScript, C, Python
- Frameworks:** HTML and CSS, NodeJS, ReactJS
- Tools/Platforms:** MySQL, MongoDB
- Soft Skills:** Time Management, Collaboration & Teamwork, Critical Thinking

TRAINING

- Coding Blocks** June 2024 – Aug 2024
 - Full Stack Web Development*
 - Provided in-depth knowledge of full stack web development, covering front-end and back-end technologies, database management, API integration, and deployment strategies through hands-on projects.
 - Tech stacks used:** HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, MySQL
- Internship Studio** Aug 2024 - Dec 2024
 - Data Analyst*
 - Covered fundamental and advanced data analysis concepts, including data cleaning, visualization, statistical analysis, and machine learning, with hands-on projects for real-world applications.
 - Tech stacks used:** Python, SQL, Excel, Tableau, NumPy, Pandas, visualization, and predictive modeling

PROJECTS

- Sales Analysis Project | Internship Studio** Nov 2024 – Dec 2024
 - Focused on systematically analyzing extensive sales data to uncover trends, patterns, and hidden insights, enabling data-driven decision-making, optimizing sales strategies, and driving overall business growth.
 - Processed large datasets, performed data cleaning, visualization, and statistical analysis, ensuring 97% accuracy in trend predictions.
 - Enhanced analytical skills by analyzing complex sales data, applying statistical techniques, and deriving key insights. Identified assessed market trends, and optimized sales strategies for higher profitability.
 - Tech:** Python, SQL, Excel, Tableau, NumPy, Pandas, visualization
- Note Making App | Coding Blocks** July 2024 – Aug 2024
 - Designed a user-friendly note-making app enabling users to create, edit, delete, and organize notes efficiently with a smooth and interactive interface.
 - Integrated real-time storage, search functionality, and a responsive UI, ensuring high accuracy in saving and retrieving notes without data loss (98% accuracy).
 - Created APIs to establish efficient communication between the database and platform, ensuring seamless data exchange, optimizing performance, and enhancing system reliability.
 - Tech:** HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, MySQL

CERTIFICATES

- Meta Android Developer by Coursera Nov 2024
- Web Development by Coding Blocks Aug 2024
- Introduction to Hardware and Operating Systems by Coursera Feb 2024
- Explore a Career in Front-End Web Development by LinkedIn Feb 2023

ACHIEVEMENTS

- Coding Interview Preparation:** Nov 2024
Coding interview preparation, strengthening problem-solving skills and algorithm expertise for technical assessments.
- I Hub DivyaSampark:** Sep 2024
Gained hands-on-experience in machine learning algorithms and real-world applications through practical case studies.
- Tcs Ion** Jul 2023
Developed professional and interpersonal skills, including communication, resume writing, interview techniques.

EDUCATION

- Lovely Professional University**
Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.50**

Punjab, India
Since August 2022
- Narayana Junior College**
Intermediate; **Percentage: 98.5%**

Hyderabad, Telangana
April 2021 - March 2022
- Vijaya Ratna High School**
Matriculation; **Percentage: 100%**

Hyderabad, Telangana
April 2019 - March 2020
